LARAPINTA Primary School has a warm and friendly vibe.

The school incorporates a preschool, which has an ‘exceeding’ rating under the National Quality Standards and recently won the Outstanding Service for Preschool in the NT award for Early Childhood Education and Care.

As the students move into the primary school they are offered a host of opportunities.

Students access a weekly specialist science program and also an arts program that includes music, dance and drama.

The arts have a strong focus in the school, from performances at school assemblies to school concerts and performing at eisteddfods and other community events.

Sport also features strongly, from whole-of-school morning fitness programs to visiting clinics, with cricket, football, soccer and tennis after school competitions supported by staff.

Being safe, being respectful and being a learner form the cornerstone of the positive behaviour program. Larapinta Primary School partners with parents and families.

From preschool to Year 6, students are encouraged to have a voice and to help shape their environment. Larapinta Primary School is a vibrant, happy and exciting place to learn.

School, Transition to Year 9 college.

We are a combined Primary & Middle School, Transition to Year 9 college.

Our focus on real relationships of responsibility, accountability and many shared experiences together, makes our college a place where students thrive, grow and mature in every area of life.

LARAPINTA PRIMARY SCHOOL

Children • Families • Community

NEW! Larapinta Child and Family Centre – opening July 2016  
• 70 place Long Day Care  
• Supported Playgroup  
• Family Support Services  
• Parent Education Programs

Centralian Senior College's diverse range of years 10-12 academic and vocational courses offers numerous supported pathways for young people to transition to life beyond school.

Supporting students to engage in courses that interest them is the foundation for a successful transition to a new school.

Year 10-12 students undertake courses at all levels, ranging from science, technology, mathematics and languages to English, humanities, the arts and health and physical education.

All students create a Personal Learning Plan (PLP) to guide their futures.

Vocational education and training (VET) courses range from trades in automotive, hairdressing, construction and engineering (welding) fields, to people-focused careers in hospitality, community services and sport and recreation. Rural operations, combining horticulture with horse and cattle handling, is another VET course available to Centralian Senior College students.

VET courses are delivered through intensive week-long blocks, afternoon classes, or one day a week release structures, mostly at Charles Darwin University (CDU).

Individual pathways established as students complete their NT Certificate of Education & Training (NTCET) may lead to tertiary studies at a university, further training as an apprentice or trainee or directly to employment.

Wherever a student’s pathway may lead them in future, Centralian Senior College's structured mentoring and wellbeing program combines with a high quality teaching and learning environment to continue to produce outstanding results.

STUDENTS maintain a high level of academic performance and are encourages to reach their full potential.

In 2015, the school saw students achieve outstanding results.
