**Sales Representative
Power Generation**

Energy Power Systems Australia Pty Ltd (EPSA) is the Caterpillar® distributor and market leader of Commercial Engines and Gensets in Australia, Papua New Guinea and the Solomon Islands.

At EPSA, we are committed to bringing out the best in our people through ongoing training and development, offering a safe, pleasant and harmonious working environment, encouraging open and effective communication between all levels and offering employment that is secure and satisfying.

An exciting opportunity exists for a Sales Representative to join our successful team in Darwin. The successful candidate will be a qualified mechanic or electrician and ideally has had some sales experience. Reporting to the Area Manager NT/PNG/SI, you will be accountable for assisting with the application, tendering and project execution of electric power generation systems for the mining and oil & gas industry in Northern Territory.

Your responsibilities will also include Marine and Industrial markets, ensuring the proper selection, application and installation of Caterpillar engines and ancillary equipment and provide technical support to customers to ensure installations are carried out to Caterpillar guidelines. The Sales Representative is the primary source of contact with customers and is responsible for dealing with all end to end customer related issues.

The successful candidate will have strong IT skills, possess excellent listening and communication skills as well as advanced time planning and self management skills to lead this business into the future.

This role requires a reasonable amount of travel, generally on an intrastate basis. We offer a competitive salary package including commission and FMCV.

If this position sounds like you then don't miss an exciting opportunity to be a part of our Caterpillar network.

Applications for this position are to be received by Friday 7th October 2011 and should be directed to jobs@energypower.com.au, quoting job reference HRReq355SalesRepNT0911.

Please note, only shortlisted applicants will be contacted.

We thank you for your interest in a position with Energy Power Systems Australia.

EXTRAORDINARY

Careers are just the **BEGINNING**

An ordinary day with INPEX is anything but. When you are creating industry-defining infrastructure projects, everything is more focused and exciting. You trade ideas with some of the best oil and gas professionals from around the world. You experience the enormous job satisfaction of solving large-scale problems. You approach each day inspired by your role in shaping the future of energy. When you work with INPEX, every day is another chance to achieve something extraordinary. We think that's pretty special.

COMMUNITY RELATIONS COORDINATOR (INFRASTRUCTURE)

This role will be responsible for coordinating community consultation and engagement activities in Darwin for INPEX and the Ichthys Project. Reporting to the General Manager Darwin, key responsibilities will include building and maintaining relationships with key Darwin community and stakeholder groups, developing and implementing communication plans and liaising internally with INPEX Public Affairs to ensure consistency in approach to stakeholder engagement activities.

A tertiary qualification in Community Consultation or Public Relations and business liaison experience within the Northern Territory is desirable. Experience in developing and implementing community stakeholder consultation programs specific to the resources industry and/or major infrastructure delivery is essential

This is a fantastic opportunity to join our world-class project and play a major role in the development of construction, commissioning and operations. For more information on this role and details on how to apply, please visit our website.
