

JKC

JKC AUSTRALIA LNG PTY LTD

**Community
Bulletin # 10**

Progress continues this week on the Ichthys LNG Project being constructed by JKC Australia LNG Pty Ltd (JKC), with works being undertaken at Howard Springs Accommodation Village, and at the onshore LNG facility at Blaydin Point.

This week's expected activities at JKC construction sites include:

Blaydin Point

- Increased heavy rock transport from 10 up to 14 trucks per day from DAC Howard West quarry (Yarrowonga) to the Blaydin Point site via Jenkins Road
- Operations include two shifts working 12-hours per shift
- Wickham Point Road intersection upgrade continues.

Howard Springs Accommodation Village

- Ongoing mulching activities which may cause some noise between the operation hours of 8.30am and 5.30pm
- Sunday July 8 activity will be limited to scheduled general maintenance

- Ongoing site preparation and top soil removal
- Continuing appropriate dust suppression - potential noise and dust impacts will continue to be monitored.

Come along to a location near you to speak with the JKC Community Relations Team

- Howard Springs Shopping Centre – Thursday July 5, from 3 to 6pm
- Humpty Doo Shopping Centre – Friday July 6, from 3 to 6pm

JKC Australia LNG is committed to the safety of the community and our workers during the construction phase of the Ichthys LNG Project.

Please help JKC and our subcontractors safely share the road network.
