Face-lift set for Nightcliff Jetty

24 November 2015

The Country Liberals Government has heard the community loud and clear and has committed $700,000 to repair the Nightcliff Jetty and is investing in a long term plan for the foreshore icon.

Minister for Infrastructure Peter Chandler said we are getting on with the job and fixing the problem immediately so Territorians can get back to enjoying the jetty.

“Urgent maintenance will be undertaken immediately to see the jetty reopen and we will also commence a design of a more robust structure for the future,” Mr Chandler said.

“Works will commence on the light poles and structural bracing straight away with a tender to go out to the public for the remainder of the work including replacing cross beams and work to concrete footings.

“The longer term plan is to build a new jetty but, by the time we decommissioned, designed, put it out for tender and then constructed we are looking at approximately a two year time period.

“Territorians don’t want to see construction on their jetty for two years, they want to use it.

“We want Territorians and the community of Nightcliff to get the most use out of their jetty and this was the by far the best option going forward.
