FIRST THINGS FIRST

Gerry Wood, Independent Member for Nelson, wants to know why an advertisement to rezone a block of land in Boulter Road has been allowed by the Department when the Department has not yet sorted out the illegal clearing issue.

The block of land was cleared illegally in April last year and the Government promised that it was going to prosecute and pursue legal action. Nothing seems to have happened.

It seems by allowing this rezoning application to be advertised that the Government is going to turn a blind eye to the illegal clearing.

I am sure our native bush is pleased?
