Crabs on the campfire

The 'Howat Group,' most of them first time mud crabbers, master the technique quickly, helping to ensure a good catch. Their fishing guide, Ross cooks them, how nature intended, on an open fire.

Mud crabs for lunch

The boys devour their catch on the secluded sandy beach and decide that there is enough time for a swim. The fish can wait.

After a 'hard' day

Finishing the day off in style here they are relaxing in the spa with a cold beer.

Monster GT sharked

Bruce Hodgson with his best catch on this trip, a monster GT weighing 42lb and that's without the tail. Bruce, his brother and dad say that Cape Don is a 'Great Experience - Thoroughly recommend to others.'
