Leadership development activities, holiday programs and drug and alcohol free events are some of the activities being funded by the Office of Youth Affairs during the December 2002/January 2003 grants round.

Chief Minister and Minister for Young Territorians, Clare Martin, today announced the successful Youth Grant recipients from across the Territory.

"The Territory Government strongly supports funding activities for young Territorians, especially when they are targeted to provide opportunities to grow and learn," she said.

"It’s impressive that youth organisations, and the youths themselves, continue to come up with such a range of new and innovative activities.

"This latest list on offer reflects the interests and talents of our young people and will allow many young people to grow and experience new opportunities.

"The Youth Grants Program is an important way of providing young people, and interested organisations, with a means to put their ideas into action."

Ms Martin said that through the Youth Grants Program, young people, aged 12 to 25 from across the Territory, can access a variety of community based activities, including entertainment and developmental opportunities.

"It's with great pride, as Minister for Young Territorians, that I announce these activities," she said.

A list of the successful grant recipients for December 2002/January 2003 grants follows.
